A restriction is imposed, as set forth below. First, however, the following subgenera are defined:

**G1:** Xaa<sub>0</sub> is "absent", or a hydrogen atom;

**G2:** Xaa<sub>0</sub> is undefined, and can only be defined by introducing new matter

**G3:** there are typographical errors in the claims, and correction will be required.

\*

Restriction to one of the following inventions is required under 35 U.S.C. §121:

- I. Claims 1-39, drawn to compounds and methods of using them, limited to G1.
- II. Claims 1-39, drawn to compounds and methods of using them, limited to G2.
- III. Claims 1-39, drawn to compounds and methods of using them, limited to G3.

The claimed inventions may or may not be distinct; it cannot be determined. The issue at this point is that Xaa<sub>0</sub> is undefined. The imposition of a restriction at this point is primarily a mechanism for seeking clarification and preferably amendment of the claims, but without conveying any indication that a "first Office action on the merits" has yet been undertaken.

Applicants are requested to amend the claims to define Xaa<sub>0</sub>, or to eliminate it. At that
